Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

The international students come with interesting views. The students learn some basics about scientific work and writing a review.

Based on the course evaluation result - which are the weaknesses of the course?

There should be more time for statistics. Better preparation for the exam (However the result of the exam was very good)

Conclusion and suggestions for course development or already made decisions

More time for statistics.

Other comments

It is a challenge with having people both on zoom and in the classroom. That might be changed to only zoom although that would decrease the possibility for interactions between student and teachers.
