Knowledge Foundation <>

Workshop on Wireless Vehicular Communications

9.00 Registration and coffee

9.30 *Protocols for Car2-X Communications*

Andreas Festag, NEC, Germany

11.00 *Measurement Based Shadow Fading Model for Vehicle-to-Vehicle Communications*

Fredrik Tufvesson, Lund University

11.30 Lunch

13.00 *Comparison of Ray Tracing, Directional Analysis and Channel Sounder Measurements for Vehicle-to-Vehicle Communications*

Taimoor Abbas, Lund University

13.30 *Chase V2X – Antenna Systems for V2X Communication*

Keerthi Nagalapur, Chalmers University of Technology

14.00 *Fast and Bandwidth-Efficient Warning Dissemination in Safety-Critical Platooning Applications*

Annette Böhm, Halmstad University

14.30 Coffee

15.00 *Increasing the Probability of Timely and Correct Message Delivery in Road Side Unit Based Vehicular Communications*

Magnus Jonsson, Halmstad University

15.30 *Remote Diagnostics Tools and Services (ReDi2Service)*

Slawomir Nowaczyk, Halmstad University

16.00 Closing

Welcome!

Elisabeth Uhlemann, Vice-chair: VT/COM/IT Sweden Chapter
