

Safety 2016 World Conference

12th World Conference on Injury Prevention and Safety Promotion

Safety 2016 – the 12th World Conference on Injury Prevention and Safety Promotion will be held in Tampere, Finland, on 18–21 September 2016.

From research to implementation

Injuries, both violence and unintentional injuries, are a major burden on public health worldwide. While experts in injury prevention and safety promotion recognize the need for action, the state-of-the-art knowledge and practice from these fields are not consistently applied to policies and programmes in the field. The main theme for the Safety 2016, “From research to implementation”, seeks to provoke new ideas and experiences to address this gap.

Abstract submission is still open

Abstract submission for the Safety 2016 is open from 1 May to 1 November 2015 (midnight, EET).

About the Conference

Safety 2016 is the 12th biennial, international conference on injury prevention and safety promotion. The conference will bring together the world’s leading researchers, practitioners, policy-makers and advocates in the field of injury prevention and safety to debate, discuss and share information and experiences.

With about 1000 attendees, the Safety 2016 Conference is one of the largest educational and scientific events in the safety promotion community. Safety 2016 is hosted by the National Institute for Health and Welfare (THL) and several partners and colleagues from Finland, Europe and the international community. The conference is co-sponsored by the World Health Organization (WHO).

Important dates

- Call for abstracts and registration is now open
- Deadline for abstract submission: 1 November 2015
- End of early bird registration: 16 May 2016
