

Explain the process of normalization by presenting it step by step as an example. Do a presentation step by step, that shows the process from the beginning (UNF) to 3NF.

Probably a more fun approach (choose this way maybe do it more fun for all of us..shall we try?):

Use Screenr.com and do a professional movie-clip (max 5 minutes and save it as mp4). Try to bring the main concepts during the way...

我愛的數據庫！😊

Я люблю базе данных! 😊
