

Cooperating Intelligent Systems

Exercise 3

September 21, 2009

This homework covers chapter 7, 8 and 9 in AIMA. The homework is due at the latest on October 4. You report it by emailing your written report (either as a PDF file or as a MS Word file) to SB (Stefan.Byttner@hh.se). Each homework assignment handed in on time gives one bonus-point for the oral exam. Homework handed in too late gives no bonus-points but each student must hand in all homework before the oral exam (or else he/she will not be allowed to take the oral exam). Read Chapter 7, 8 and 9 (not circuit-based agents) in AIMA.
