

DS4003 (Principles and Techniques for Data Science, HT 2024, Halmstad, H3014, X3002)

Number of possible respondents: 20

Answers: 7

Response rate: 35,00 %

Study pace: 33 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Content and teaching method

Based on the course evaluation result - which are the weaknesses of the course?

Most students have focused on the heavy course material, feeling significant pressure to prepare for the final exam.

Comments about the collaboration with the course ambassadors

I maintained close communication with the course ambassadors, and most of the students' requests were addressed throughout the course.

Conclusion and suggestions for course development or already made decisions

Starting in 2025, the course will be offered for 7.5 credits instead of 11, with adjustments to the content. Based on a student's suggestion, I will consider introducing a mid-term exam to help reduce the workload for the final exam.
