

IE2015 (Innovation and Sustainable Development, HT 2024, Ortsoberoende, 10129)

Number of possible respondents: 29

Answers: 7

Response rate: 24,14 %

Study pace: 25 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Thank you for your time when filling in the course evaluation. The response rate was slightly over 24% which is a decrease compared with last year. It is difficult to draw any reliable insights given the response rate to the evaluation based on the fact that not all have expressed their opinion. 91% of those who have answered the evaluation are overall satisfied with the course. You have, pointed out that you liked the reading diaries a lot and perceive that they have helped you to interact and understand the theoretical concepts from the readings. You liked the course structure and the link to the cases as real-life examples and perceived the teachers responded quickly.

Based on the course evaluation result - which are the weaknesses of the course?

Your suggestion for improvements is related to the workload as well as the need for group assignments and group interaction. When it comes to the need for group assignments, the comments are mixed. Some of you would like to see more group work while others prefer not to have any group work.

Comments about the collaboration with the course ambassadors

We did not use the course ambassador model but rather relied on the Q&A forum and input via BB messages.

Conclusion and suggestions for course development or already made decisions

Overall, you are satisfied with the course. However, you would like us to rethink when it comes to the expected commitment to the course as well as the group work and discussion.

Other comments

Good luck with your future studies!
