

MT6008 (Internship / Industrial Placement in Applied Mechanical Engineering, HT 2024, Halmstad, X0506)

Number of possible respondents: 3

Answers: 1

Response rate: 33,33 %

Study pace: 100 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Hard to say anything based on the evaluation (only one out of three students answered the evaluation).

Based on the course evaluation result - which are the weaknesses of the course?

Hard to say anything based on the evaluation (only one out of three students answered the evaluation). Seemed that the student did not meet their supervisor as often as they wanted.

Comments about the collaboration with the course ambassadors

We do not have any - too few students in the course. But, we meet and discuss progress and other questions related to their stay during regular meetings.

Conclusion and suggestions for course development or already made decisions

Hard to get input from students that often have left Sweden when they get the evaluation; could give them a short evaluation during their last meeting to secure input from all.
