Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Interesting course.

Based on the course evaluation result - which are the weaknesses of the course?

Groups, we will change how we divide the groups, maybe wait one week

Comments about the collaboration with the course ambassadors

Conclusion and suggestions for course development or already made decisions

basic, the course is working well and the students are happy with the content

Other comments

We have a small problem with students not attending the classes. If we have a lecture with 10 students and the course have 37 students, to many students miss important information and we have to repeat this many lecturers later.
