Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Kursen upplägg och examinationsform. Uppskattat att få feedback mellan inlämningsuppgifterna samt regelbunden handledning.

Based on the course evaluation result - which are the weaknesses of the course?

Ergonomi och människa-maskininteraktion är ett brett ämne som kräver att vi behöver prioritera vad kursen ska fokusera på för att uppnå en fördjupad förståelse. Exempelvis upplevde studenterna att UX och mjukvara var intressant men inte lika relevant.

Conclusion and suggestions for course development or already made decisions

Det finns ett behov av att förfinas inlämningsuppgifterna för att studenterna ska komma igång snabbare. Kursplanen har justerats och tydligtgjort att det är fysisk och kognitiv ergonomi med fokus på produkt eller teknisk system som behandlas i kursen.
