

MX8018 (Ecological Resilience, HT 2024, Halmstad, H0354, X0354)

Number of possible respondents: 20

Answers: 16

Response rate: 80,00 %

Study pace: 50 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

The course was well received with a happiness index of 99%. Especially good was the coupling of excursion with the course content and the statistics workshops.

Also very appreciated were the presentation exercises that were done in collaboration with studenthälsan. This led a standard of the scientific presentations done by the students in this course.

Based on the course evaluation result - which are the weaknesses of the course?

The written project need to be better explained and the writing workshops need to be better integrated into the course. We have already started working on improving this part of the course.

Comments about the collaboration with the course ambassadors

Teachers and course ambassadors had a dialog throughout the course.

Conclusion and suggestions for course development or already made decisions

The written project need to be better explained and the writing workshops need to be better integrated into the course. We have already started working on improving this part of the course. Together with the library staff, we have evaluated this part of the course and are working on a new set-up for this part.
