In the course, we will add more of the latest technologies.

It is the first time we try the larger groups with small sub-group in this course. But it is not effective, so the project work will have smaller groups next year. The presentations about each project work will help you learn how to present and to gain knowledge from the other groups. Good project work will add points to the final examine.

Some students want to have more experiment, however, only 30% of students attend the volunteer experiment in this year.

Guest lectures and study visits will be part of the course also next year.
