Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Strengths of the course appear to be lectures connected with practical labs as well as practice examination and plenty of practice questions ensuring students had good opportunity to perform well at the exam.

Based on the course evaluation result - which are the weaknesses of the course?

Some course material needs to be translated from Swedish to English to ensure consistency and openness for international students. Basics in Excel workshops need to be provided.

Comments about the collaboration with the course ambassadors

There was an ongoing dialogue with students throughout the course. In addition, formal discussions with the course ambassadors will be held once per semester. Issues raised and decisions made during these meetings will be documented and posted on Blackboard.

Conclusion and suggestions for course development or already made decisions

Overall, student satisfaction with the course was 65%. The course will continue to connect lecture material with practical lab sessions. Basics in Excel workshops need to be provided. All material should consistently be in English.
