

DS4005 (Human-Centered Design for AI, VT 2025, Halmstad, E3128, V3128)

Number of possible respondents: 17

Answers: 2

Response rate: 11,76 %

Study pace: 50 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

They report that the course pace was quite good, and that the syllabus corresponded to the learning outcomes. This is also, according to this survey, true of the exam.

Based on the course evaluation result - which are the weaknesses of the course?

Respondents 2 (11,76% of possible respondents). The course was half-paced.

The number of respondents are too low to draw any meaningful conclusions.

Comments about the collaboration with the course ambassadors

For this course, course ambassadors were not recruited, but instead a continuous dialogue was conducted with the students during the course sessions.

Conclusion and suggestions for course development or already made decisions

We are looking into giving this course together with the students from IK4052, DDI-students, which will make the these students within AI-engineering think harder about Human Centered Design (HCD). It is already decided that it will be 7,5 HP (this instance was 5,5 HP).
