Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Utifrån diskussioner med studenter var det uppskattat att ha första projektet (1,5 hp), kopplat till att lära sig FABLAB och bygga den "lilla bilen" och examineras, detta gjordes i grupp och sedan hade studenterna ett individuellt quiz.

Based on the course evaluation result - which are the weaknesses of the course?

Svagheten i år, är kopplat till det utvecklingsprojekt (5 hp) som genomförs, här lyckades vi inte få fram den information som vi hade önskat. En anledning till detta är att vi valde att arbeta tillsammans med ett universitet i Ukraina kopplat till jordbuket, då det är väldigt aktuellt och de behöver mycket stöd, men avståndet, språk och att Ukraina är i krig, gjorde att det blev lite svårare än vad vi först trodde med att förmedla information mellan grupperna.

Comments about the collaboration with the course ambassadors

Vi hade god kommunikation med kursambassadörerna.

Conclusion and suggestions for course development or already made decisions

Vi kommer att vara mycket tydligare i informationen kopplat till utvecklingsprojektet nästa år.

Other comments

Det var få som svarade på kursenkäten, 7 stycken av 19 studenter. Nästa år ska vi arbeta mer aktivt på att få in fler kursvärderingar.

I am overall satisfied with the course.

	Number of responses	Distribution (%)	Index (%) I am overall satisfied with the course	49
