Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Thank you for taking the time to fill in the central evaluation survey sent from the University and for the constructive comments you provided—approximately 52 % of the class filled in the survey. Overall, those who answered the survey took useful tools from the course and enjoyed different workshops and the experience-based learning approach. You have also appreciated the collaboration with the case company.

Based on the course evaluation result - which are the weaknesses of the course?

Some of you are critical of the need to read a course on this subject as an energy-smart student as well as the mix between students who know the subject area more than others. Others felt the need for clearer information about tasks and more time for feedback from the teachers and the company.

Comments about the collaboration with the course ambassadors

We have not implemented the course ambassador model.

Conclusion and suggestions for course development or already made decisions

We are happy that you have identified several aspects where you see the potential for improvement that we will consider for next year's course, such as providing more examples relevant to the energy-smart students. We will also see over the instructions and information provided, as well as the time for feedback around the course project.
