

EL8009 (Optoelectronics, HT 2022, Halmstad, H3914, X3914)

Number of possible respondents: 9

Answers: 6

Response rate: 66,67 %

Study pace: 50 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

The course is set at the correct pace and meets the course learning objectives.

Based on the course evaluation result - which are the weaknesses of the course?

There seems to be few weaknesses in the responses however there is potential room for increasing the pace of learning slightly. However this is only one statement that suggested not spending the full allocated time on the course.

Comments about the collaboration with the course ambassadors

Collaboration was carried out in line with the suggestions of the university. Due to the small course size, it was relatively straightforward to get feedback from all students on the course in real-time.

Conclusion and suggestions for course development or already made decisions

The course will change for HT2023 in line with the requirements of FUN and external reviewers. Therefore the course will not be the same as for HT2022.
