

MT8004 (Development of Product- and Manufacturing Technology, HT 2022, Halmstad, H0519, X0501)

Number of possible respondents: 25

Answers: 18

Response rate: 72,00 %

Study pace: 50 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

From your answers, you seem satisfied or very satisfied with the project and the tasks for the book.

Based on the course evaluation result - which are the weaknesses of the course?

We have some problems with the groups and students' participation in the project. This will change for next year when the students must report their contribution to the work in more detail. Students living far outside Halmstad are not optimal, but I hope this can be better next year.

Comments about the collaboration with the course ambassadors

We have a good dialogue with the students and have tried to make improvements during the ongoing course.

Conclusion and suggestions for course development or already made decisions

Next year we will spend a little more time on software and hope we will not have the same problems with licenses as this year. Otherwise, there will only be minor adjustments.
