Based on the course evaluation result - which are the strengths of the course?

The strengths are the availability of the teachers and the creativeness of the tasks.

Based on the course evaluation result - which are the weaknesses of the course?

The weaknesses is the connections to the Swedish parallel course. The social situation with the Swedish students needs to be better systematized to guarantee a good study environment, and the teacher communication must always be in English.

Comments about the collaboration with the course ambassadors

No ambassadors were recruited, but the groups were relatively small (8 students), and the communication plan of the course made it possible to continuously guarantee a constructive dialogue.

Conclusion and suggestions for course development or already made decisions

Establish some kind of mentor system so that the relations between the two groups get more structured and are more easily accessible to address and alter when needed.
