

BY4039 (Structural Engineering I, VT 2023, Halmstad, V0610, X0610)

Number of possible respondents: 69

Answers: 22

Response rate: 31,88 %

Study pace: 50 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Many students found the design project rewarding.

Based on the course evaluation result - which are the weaknesses of the course?

Some students felt that the available time for the study of concrete structures was not enough.

Comments about the collaboration with the course ambassadors

Two course ambassadors were elected, and the cooperation worked well. They had the opportunity to have influence on the course specific questions.

Conclusion and suggestions for course development or already made decisions

Improvements for next year:

- use more time for concrete structures
- make sure that there are enough time for repetition in the end of the course
- make sure that the software used for the design project are easy available
