Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

From your answers in the course evaluation, many of you enjoyed the course. Students found the various subjects, practical exercises, and the project to be the best of the course. Some students appreciated the teacher doing live coding demonstrations during lectures and lab sessions. Many students reported having fun while working on the course activities. Students liked the format of the mid-term and final exams. Students also reported that the course enabled improving programming skills.

Based on the course evaluation result - which are the weaknesses of the course?

Some areas need to be improved. Many students complained about the course workload and the timing of some activities. Some students reported needing more support, feedback, and equal treatment. I apologize for this. However, it is worth saying that many students have not attended the online lab sessions, where they had the opportunity to ask questions.
