

DT4014 (Advanced Object Oriented Programming, VT 2023, Halmstad, V3413, X3413)

Number of possible respondents: 68

Answers: 20

Response rate: 29,41 %

Study pace: 50 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

The course was received well by the students and the hands-on experience seems to be very valued by the students.

Based on the course evaluation result - which are the weaknesses of the course?

Some comments were provided to improve the course quality (for example, adapt the lecturing speed), but none of those require any serious changes in the course design.

Comments about the collaboration with the course ambassadors

Cooperation with ambassadors was good, however, since the course was going smooth, there was in fact little communication required anyhow.

Conclusion and suggestions for course development or already made decisions

The small comments will be taken into account when preparing the next instance of the course.

Other comments

Thank you for active participation in the course and I will hopefully see you again during one of my other courses at HH! Wojciech
