

IK8026 (User Experience Design for AI, VT 2023, Ortsoberoende, 23803)

Number of possible respondents: 56

Answers: 11

Response rate: 19,64 %

Study pace: 17 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Materials, general format, and structure are confirmed to be appreciated by students. Recorded takeaways from the assignments are also something that is regularly mentioned as one of the highlights

Based on the course evaluation result - which are the weaknesses of the course?

Because of the particular nature of the MAISTR courses, we have students who always find the low- but constant-engagement structure of the course challenging in relation to the necessity to submit assignments. This limits the number of them who goes for credits.

Participation in the "live" events has been very limited this year as well (contrary to last year), and some students asked for the possibility of on-site moments.

Comments about the collaboration with the course ambassadors

-

Conclusion and suggestions for course development or already made decisions

Live moments have to be recast or redesigned so that they can address some of the shortcomings mentioned by the students (for some of them, no daytime is the right time because of work commitments, which makes changes difficult)
