Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Three check-ins were conducted with the course ambassadors before, during, and after the course. It was positive to receive feedback on both the course design and ongoing course activities. The feedback helped us improve clarity in our communication.

Based on the course evaluation result - which are the weaknesses of the course?

We have communicated both the challenges and the benefits of working in mixed student groups from different programs. Going forward, we can include more elements of team building and group collaboration to facilitate group work.

Comments about the collaboration with the course ambassadors

Very positive and rewarding to discuss course design and structure.

Conclusion and suggestions for course development or already made decisions

We will continue to engage companies and work with real-life cases, which are appreciated by both students and company representatives.
