Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

The course evaluation was generally very positive, with a satisfaction index of 90%. In particular, the teacher and its pedagogical approach, the design of lessons and the entire course as well as the open dialogue between teacher and students have been highlighted as positive. Furthermore, the pace of the course as well as the different course elements in general were positively evaluated.

Based on the course evaluation result - which are the weaknesses of the course?

Mostly, the clarity of project instructions and in this sense also the reconciliation between teachers has been mentioned as points that should be improved. Also, the timing of the project in the end of the course and thereby the overlap with other exams has been mentioned to be improved. Further, a few comments were noted on the structure of the course, such as the length of lessons and waiting time for feedback on assignments or that not all questions could be answered in class.

Comments about the collaboration with the course ambassadors

Collaboration with the course ambassador was limited to a constructive discussion about how the course was experienced by the class, as well as constructive suggestions for improvement from the class.

Conclusion and suggestions for course development or already made decisions

The teacher team has already started discussing the projects instructions as well as how reconciliation between teachers on the project and assignments can be improved. In addition, changes in the structure of the course in terms of timing of the project as well as the length of lessons are in progress.
