Dear All,

Thank you for your valuable feedback and for your engagement in the course.

We are pleased to hear that the course content was clear, accessible, and relevant. It is encouraging that the combination of lecture videos, recorded seminars, and step-by-step lab materials supported your learning experience. We also appreciate your recognition of the practical examples and real-world scenarios, as these are intentionally integrated to highlight the impact and relevance of cybersecurity in practice.

At the same time, your suggestions for improvement are highly appreciated and will be taken into account in future iterations of the course. In particular:

- * We will work on improving communication and course structure, including providing a clearer overview of expectations, tasks, and timelines from the beginning.

- * We have noted the request for more practical components, and we will evaluate how to better balance assessments with hands-on activities.

- * Finally, we acknowledge the need for greater interaction and engagement during lectures and will explore ways to enhance them, particularly in a remote setting with very low in-person attendees. :)

Your feedback is essential in helping us refine the course and ensure it remains relevant, practical, and engaging for future participants.

Thank You!

Mohamed
