Dear All!

Thank you for your thoughtful feedback and for sharing your experience with the course.

We are glad to hear that you found value in the course content, particularly the practical exercises, lab materials, and selected modules such as the darknet investigation. It is also encouraging that the course broadened your understanding of digital forensics and fostered independent learning through the project work.

We also sincerely appreciate your constructive suggestions, which highlight several important areas for improvement:

* We recognize the need for a clearer course structure and better alignment between modules.

* The request for more practical, hands-on activities is well noted, particularly given the applied nature of digital forensics. We will evaluate how to increase practical components and potentially offer more flexible assessment formats.

* Finally, your suggestion to include more real-world cases, legal context, and applied scenarios is highly relevant and will be considered in future course updates.

Your feedback remains valuable regardless of the course's completion status and contributes to the course's continuous improvement.

Thank You!

Mohamed
