

MX8022 (Geographical Information Systems with Focus on Ecosystem Services and Sustainable Community Development, VT 2026, Halmstad, V0539, X0539)

Number of possible respondents: 11

Answers: 7

Response rate: 63,64 %

Study pace: 50 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

The course evaluation was generally very positive, with a satisfaction index of 99%. In particular, the teacher and its pedagogical approach, as well as the structure of the course in terms of a combined computer-fieldwork approach, study pace and the seminar where students where teaching new functions in GIS to the class were highlighted. Further, the structure of the lessons as well as the final project have been evaluated as positive, as well as the opportunity to learn GIS.

Based on the course evaluation result - which are the weaknesses of the course?

Suggestions for improvement included a lesson in the end of the course where question could be asked by students and parts of the course content repeated. Furthermore, the shortening of lessons as well as a higher diversity of environments for assignments have been suggested.

Comments about the collaboration with the course ambassadors

A course ambassador could not be recruited, which is compensated by the generally high satisfaction with the course as well as constructive comments from students in the course evaluation.

Conclusion and suggestions for course development or already made decisions

Suggestions for improvements are well-thought and are in planning to be included into the course.
