

MX8022 (Geographical Information Systems with Focus on Ecosystem Services and Sustainable Community Development, VT 2024, Halmstad, E0539, V0539)

Number of possible respondents: 12

Answers: 9

Response rate: 75,00 %

Study pace: 50 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Overall, satisfaction with the course was very high. The course was very well-designed to achieve the learning goal and students had the opportunity to show learning outcomes. Also, the social environment was experienced as very good.

Based on the course evaluation result - which are the weaknesses of the course?

Time spent for the course was well-related to study pace for most students but more time was needed for some students.

Comments about the collaboration with the course ambassadors

No course ambassador was determined but because the course was split into beginners and advanced students, thereby adjusting teaching to students' skills as well as achieving smaller learning groups, teaching could be personalized to needs of each student.

Conclusion and suggestions for course development or already made decisions

Teaching material will be further developed so that time spent for the course and its study pace will be in good relation for all students.
