

HÖGSKOLAN
I HALMSTAD

Template for supervisors' declaration

This is a translation of the guideline *Mall för handledardeklaration*. Keep in mind that this is just a translation. It is the document in Swedish which is established by the Committee for doctoral education. Date when established: 2015-09-03. Reg. no.: L 2015/116.

The principal supervisor and second supervisor are required to make comments describing the doctoral student's contribution and ability to work independently in the scientific work of the different modules. These comments will then be distributed to the members of the examining committee. Please bear in mind that if a member(s) of the examining committee does not understand Swedish, the comments need to be written in English.

These comments shall describe the student's own contribution to the conducted scientific work (initiative, interest, planning, practical work, analysis, compilation, composition) for the thesis in its entirety for a monograph; as well as all research articles for a compilation thesis.

These comments are to be signed by both the principal supervisor and the second supervisor.
