

DI2003 (Computer Systems Administration, HT 2023, Halmstad, E3112, H3112, X3113)

Number of possible respondents: 96

Answers: 47

Response rate: 48,96 %

Study pace: 50 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

As highlighted in the evaluation, the strengths of the course lie in the well-structured materials on Blackboard, helpful support, and practical labs. The availability of practice exams and digital books through Cisco Netacad was appreciated. Students commend the teacher's excellent and easy-to-understand explanations and the positive atmosphere in lectures. Overall, the course is considered fun, interesting, and informative.

Based on the course evaluation result - which are the weaknesses of the course?

As identified in the evaluation, weaknesses of the course include challenges with course planning and the pace of lectures being behind schedule. The difficulty of the exams was also noted as a weakness. These areas indicate potential improvements in planning, pacing, and aligning assessments with course content.

A comment on the course planning is that, due to the number of students, it was hard to allocate the lab room so that lectures precede the labs.

Comments about the collaboration with the course ambassadors

- We have not included course ambassadors

Conclusion and suggestions for course development or already made decisions

The overall course satisfaction index was 72%. 47 students (49%) answered the course evaluation. In conclusion, the course demonstrates strengths in practical learning, supportive materials, and instructor engagement. However, challenges in planning, pacing, and exam alignment were noted. To enhance the course, the course responsible will stress the importance of better scheduling of lab exercises, which is difficult given that other courses also use D515.
