Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

- Participants' different backgrounds
- Discussion forum and the weekly meetings were engaging
- Very good exam setup (having to formulate my own relevant questions)
- Self-paced
- The teacher's knowledge
- Interesting and up-to-date literature
- well-planned course with very informative, good, regular updates

Based on the course evaluation result - which are the weaknesses of the course?

- Too much reading material for the time frame
- Stahl book is not
- More discussions in smaller groups
- The sound/microphone for the second teacher

Conclusion and suggestions for course development or already made decisions

I might reconsider replacing Stahl's book (with two articles) for the next time.
We have already many interactions with weekly updates. But I do think some students are more enthusiastic and want to have more interaction. However, this is an online 3hp course and I cannot accommodate more meeting interactions without stressing the students about time. I might consider making online discussions mandatory.
