

MP6001 (Advanced Material and Manufacturing Technologies, HT 2023, Halmstad, E0517, H0517, X0520)

Number of possible respondents: 41

Answers: 23

Response rate: 56,10 %

Study pace: 50 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

All 23 students who answered were satisfied with the course (23 of 41 students). The course seems also to be well balanced with good course design and examinations. Comments from the students: Positive to lectures, practical assignments, and the dialogue with the teachers.

Based on the course evaluation result - which are the weaknesses of the course?

Comments from the students: some ask for clearer instructions, but most seem to be satisfied. Few students attend the class on campus, and even the lectures held online had few attendances.

Comments about the collaboration with the course ambassadors

Has a continuous dialogue with the students; no ambassadors this year.

Conclusion and suggestions for course development or already made decisions

Few students on campus need to think if there are any solutions... However, it is a general problem with courses/programs with students from abroad.
