Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Det verkar som de flesta tyckte det var lärorikt och relevant att vara på ett företag/arbetsplats och att arbeta med ingenjörsuppgifter.

Based on the course evaluation result - which are the weaknesses of the course?

Kurslitteraturen behöver förbättras. Även upplägget kan förändras så att studenterna också har moment på Högskolan under tiden för att utbyta erfarenheter och arbeta med examinationsuppgiften.

Comments about the collaboration with the course ambassadors

Tyvärr har ingen kursambassadör anmält sig. Dock hade vi ett utvärderande samtal med hela gruppen i slutet på slutseminariet av kursen, där vi fick feedback och idéer till nästkommande år.

Conclusion and suggestions for course development or already made decisions

Ändra till ett upplägg med två dagar praktik, en halvdag för arbete och veckoseminarium på campus under processen. Byte av litteratur till nästa år.

Other comments

Det är minst en svarande som upplevt en mycket dålig studiemiljö (betyg 1). Det är viktigt att vi följer upp detta om det handlar om att personen inte trivs på den arbetsplatsen som tilldelats eller möjligen kopplas till någon händelse. .
