

MX8018 (Ecological Resilience, HT 2023, Halmstad, H0354, X0354)

Number of possible respondents: 20

Answers: 10

Response rate: 50,00 %

Study pace: 50 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

The excursions are a very appreciated and a clear strength of the course.

Based on the course evaluation result - which are the weaknesses of the course?

There is always a lot of stress in the beginning of the master program due to many new systems. Therefore the students experienced stress. We will try to give more guidance in the beginning in order to reduce this stress.

Comments about the collaboration with the course ambassadors

We got some feedback on the stress the students experienced in the beginning of the course. Also many students are not used to giving presentations in front of the class. This leads to stress, since this is part of the Swedish system.

Conclusion and suggestions for course development or already made decisions

We will continue with the course as is and improve the guidance, especially in the beginning of the course.
