

TB8006 (Sustainable Exercise for Health Promotion - Theory and Practice, HT 2023, Halmstad, 10599, H0599, X0599)

Number of possible respondents: 13

Answers: 9

Response rate: 69,23 %

Study pace: 50 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

The labs and the lectures

Based on the course evaluation result - which are the weaknesses of the course?

The labs were crammed into one day and it was too much at one time.

The parallel courses overlapped in some content.

Comments about the collaboration with the course ambassadors

The program director had the direct contact with all the students so no course ambassadors were appointed

Conclusion and suggestions for course development or already made decisions

For next year we will divide the labs into two days for a better learning experience. We will also look over the content so it does not overlap with another course.

Other comments

Thank you for your positive comments and comments where we can improve. We appreciate you take the time to answer.
