What were the three main highlights of the course for you?

Would you like to keep the course format as it was (practical with real-life cases) or turn it into more theoretical and run by an academic?

Did you find it useful to learn the course materials in English and have international case studies or would you prefer to have a Swedish-speaking lecturer with case studies based on Swedish companies only?

How do you describe your experience of the lecturer and his style of teaching?

What were your learning outcomes of the group projects, the presentations and the discussions/debates in the Q&A sessions?

What would you take away from this course to your other courses in the future and after your graduation?

How do you describe your experience of the quiz/game and exam preparation lectures (BSC lectures with Hyundai case study)?

Do you think other students in the program who have not had this course are at a disadvantage or advantage compared to you? Why?

How much the lecturer was successful in communicating with you, understanding your requirements of the course and implementing changes as the course was progressing?
