

IK8026 (User Experience Design for AI, VT 2024, Ortsoberoende, 23803)

Number of possible respondents: 47

Answers: 8

Response rate: 17,02 %

Study pace: 17 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Content, structure, and pace are constantly mentioned as strengths, as is the wealth of additional resources (articles, videos) provided to the students. The Forty Tops podcasts recorded for the course were also mentioned.

Based on the course evaluation result - which are the weaknesses of the course?

Blackboard keeps being a less-than-optimal LMS for these sort of courses. Feedback on assignments is provided by teachers in live meet-ups that not many students join, so there were requests for more written feedback from staff

Comments about the collaboration with the course ambassadors

No course ambassadors in this course (MAISTR, online-only, low-load)

Conclusion and suggestions for course development or already made decisions

Get back to recording feedback sessions (abandoned this year as unclear whether students agreed to being recorded) as a way to reach the students who do not join (writing comments individually is too time consuming). Could be done via a consent form to be uploaded to BB

Other comments

Course is steady in terms of numbers and percentage of enrolled v really attending v going for credits. Possibly think of ways to raise the numbers of attending and submitting?
