The case-study seminar was mentioned by several students. It was introduced this year and highly appreciated by the students.

Based on the course evaluation result - which are the weaknesses of the course?

The low index of the design of the course (55 %) indicates that there is room for improvement in terms of lecture scheduling and the placement of the two seminars. The literature seminar did not have enough clear instructions.

Conclusion and suggestions for course development or already made decisions

The suggestion is to revise the first seminar, the literature seminar, with better instructions. The overall design will also be revised for next spring.
