Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

The combination of theory, practice, and seminars, where exercises followed the theoretical parts.

Based on the course evaluation result - which are the weaknesses of the course?

Scheduling, linguistic difficulties, literature, and depth of different learning activities are highlighted as weaknesses. You asked to plan the last lecture earlier. There is also a desire for more depth in different learning activities.

Comments about the collaboration with the course ambassadors

Dialogue with students was ongoing during the course, but the course is also discussed with course ambassadors scheduled once a semester. The issues raised and the decisions taken will be posted on the BB.

Conclusion and suggestions for course development or already made decisions

Overall, the satisfaction was 78%.

We try as far as possible to plan the schedule so that the last week does not involve new lectures. Otherwise, the course is planned based on the idea that everyone should have the opportunity to achieve the course objectives and gain knowledge of exercise training at a basic level, where your prior knowledge differs significantly.
