

For students who intend to write a written composition/thesis in Business Economics 61-90 higher education credits

In order to be able to write a written composition, you must be accepted and registered for a course in which the written composition is included.

Group size

The written composition should be written in a group of 2 students

Submission of subject area, application form, receipt

Your intended problematic area must be submitted no later than 12:00 on November 24. Use the link you will receive via the email from your director of studies. It is important that you respond in time; otherwise, the school cannot otherwise guarantee you supervision.

According to the decision of the school, each written composition group should consist of 2 people and may be forced to assign co-authors to groups if the group registration does not contain the correct number of names.

Distribution of supervisors

The school appoints supervisors to each group

Supervisors contact and inform their groups

The respective supervisors contact their groups as soon as the supervisor has been appointed

Instructions

Read the school's instructions for social science written compositions. The instructions can be found on the school's website, the written composition information page (www.hh.se/364.html)

Evaluation

The written composition course ends with a course evaluation; this will be sent to your student email at the end of the term

Good luck with the composition!
