

DI4025 (Biometric Recognition, HT 2025, Halmstad, H3810, X3810)

Number of possible respondents: 61

Answers: 18

Response rate: 29,51 %

Study pace: 50 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Students appreciated the lectures and the opportunity to learn about biometric recognition and its different methods.

The laboratory work and lab reports are mentioned as valuable for understanding how biometric systems function in practice.

Several students highlighted that the course gave a good overview of the topic and that the teacher was helpful.

Based on the course evaluation result - which are the weaknesses of the course?

Several students reported that the instructions for the laboratory assignments were unclear and difficult to follow.

Some comments also mention issues with the course schedule and timing of laboratories in relation to the exam.

In addition, students indicated that more explanations, lectures, and clearer communication about instructions and deadlines would improve the course.

Comments about the collaboration with the course ambassadors

Conclusion and suggestions for course development or already made decisions

Overall, students appreciated the lectures, the interesting topic, and the opportunity to learn about biometric recognition through laboratory.

Several comments indicate that the laboratory instructions and course organization could be improved. For future iterations of the course, it would be beneficial to clarify the lab instructions, ensure consistency between different course materials, and review the scheduling of laboratories and deadlines in relation to the exam
