### **Examiner's course analysis**

#### **Based on the course evaluation result - which are the strengths of the course?**

the 3 components of the course (structure-wise)

#### **Based on the course evaluation result - which are the weaknesses of the course?**

Placing the quiz at the beginning of the course—as was originally intended to encourage students to start reading from day one rather than waiting until the end—may not be a good idea, given the high failure rate observed on the first exam of the quiz.

#### **Comments about the collaboration with the course ambassadors**

yes, course ambassador and the teacher have continuous communication.

#### **Conclusion and suggestions for course development or already made decisions**

Next time, we should send out a course evaluation reminder to encourage participation and aim for a more representative picture, as fewer than 50% of students completed the evaluation this time. This evaluation result differs from my impression that many students do feel inspired by the discussions, not least in the project work (& seminar).
