

DT8013 (Data Mining, HT 2025, Halmstad, E3438, H3438, X3438)

Number of possible respondents: 34

Answers: 13

Response rate: 38,24 %

Study pace: 50 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Practical and meaningful project experience

Engaging seminars

Well-designed labs

Comprehensive coverage of key topics

Based on the course evaluation result - which are the weaknesses of the course?

Short gap between lectures and labs

Some students requested to start the project earlier

Unclear lab instructions

Students asked for fixed lecture days

Comments about the collaboration with the course ambassadors

No volunteer for the course ambassador.

Conclusion and suggestions for course development or already made decisions

The main cause of this issue was the new scheduling system, which does not allow predefined session dates. I will ensure that I plan lectures and labs more effectively in the future. For the same reason, it's not possible to set fixed lecture days, as the Course Responsible does not have control over the scheduling. Next year, we will ensure that lab instructions are clearer and that project details are announced earlier.
