

IK8035 (Research Placement in Digital Learning, HT 2025, Halmstad, H1050)

Number of possible respondents: 16

Answers: 10

Response rate: 62,50 %

Study pace: 100 %

Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

Students appreciated the opportunity to engage closely with active researchers and gain insight into ongoing research projects. Regular supervision was highlighted as particularly valuable, as it supported students' understanding of research. Students emphasized the positive role of both course and field supervisors, who were described as supportive and approachable throughout the course

Based on the course evaluation result - which are the weaknesses of the course?

Students expressed a need for clearer structure, more consistent communication, and better preparation before the course begins. Some students requested a clearer, earlier overview of possible placements, including both academic and industry options, as well as explicit descriptions of cases and the responsibilities of field supervisors.

Comments about the collaboration with the course ambassadors

-

Conclusion and suggestions for course development or already made decisions

For next year, we will work on improving the clarity, structure, and organisation of the course. We will ensure that course information, instructions, and assessment criteria are communicated earlier and consistently, and that all supervisors meet beforehand to align their understanding of the course requirements. We will also ensure that deadlines are planned to avoid periods when supervision and support are unavailable.

Other comments

We are really glad about the high response rate, 62,5%

I am overall satisfied with the course.

	Number of responses	Distribution (%)	Index (%) I am overall satisfied with the course	72
