Examiner's course analysis

Based on the course evaluation result - which are the strengths of the course?

The strengths are the course format, real case study, and preparation for the master's thesis.

Based on the course evaluation result - which are the weaknesses of the course?

A key weakness is the uneven student engagement and the need for clearer communication about grading. Although the final grade is based on the home exam, the course activities function as preparation and this link should be made more explicit.

Comments about the collaboration with the course ambassadors

Conclusion and suggestions for course development or already made decisions
