The course was in general well liked. The mini exams, lectures, seminars as well as the group work were appreciated.

Based on the course evaluation result - which are the weaknesses of the course?

The workload in the parallell course was very high, which in the beginning affected the course. In some groups, group work did not work as well as could be desired.

Comments about the collaboration with the course ambassadors

The course ambassadors were involved when the workload in the parallell course became to high. Otherwise there were no issues of concern.

Conclusion and suggestions for course development or already made decisions

In general, students were very happy with this course. Next autumn, I may include a workshop on group work, where a group contract is signed.
